**Speed Queen®**

# BUILT FOR **RELIABLE** PERFORMANCE.

100 years. It's a long time for any company to be at the forefront of an industry. And you'd think that a company that's been able to lead for that long must have a finely honed craft — a premier product. Well, you'd be right. For more than a century, Speed Queen has built a legacy on providing equipment that stands up to any commercial laundry challenge. We make no compromises in performance. We refuse to be outdone in reliability and efficiency. Our commitment to quality is only matched by our commitment to your success. The result? The most profitable machines in the industry — bar none.

Some of our competitors may think that a residential machine wrapped in a rugged exterior passes for commercial grade. We believe that strength comes from within. Speed Queen machines are built specifically for the commercial environment. We use metal where others use plastic. Our world-class Test Lab rigorously pushes our products far beyond the conditions they'll face in the field. We believe in being there when our customers need us most. And we work hard at every point of our manufacturing process to ensure that our machines reflect that belief.

# LAUNDRY. IT'S ALL WE DO.

As the world's largest commercial laundry company, we help you achieve profitability with more laundry services than anyone else in the industry.

## LAUNDRY DESIGN

From selecting the right location to choosing a layout and everything in between.

## DISTRIBUTORS

True laundry experts, our knowledgeable distributors offer guidance, service and support.

## CUSTOMER ONE

We're committed to delighting our customers at every point of interaction.

## GENUINE PARTS

Same design. Same reliability. The perfect maintenance solution.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 20 lb (9.0 kg), 30 lb (13.6 kg), 40 lb (18.0 kg) and 60 lb (27.0 kg) capacities\*.

## HARDMOUNT WASHER-EXTRACTORS

Flexible water usage. High-speed extraction. This sublime marriage of form and function will be the crown jewel of your laundry operation.

Many factors contribute to your laundry's profitability, but most prominently featured are its washer-extractors. These units, by virtue of their size and speed, are customer draws and profit producers. Successful coin laundry owners understand this and will install a variety of sizes. The heavy-duty construction and reliable operation guarantee your washer-extractor will be in service for years to come.

## HARDMOUNT WASHER-EXTRACTOR CONTROLS

### QUANTUM™ GOLD

In addition to its networking and off-site management capabilities, Quantum™ Gold offers a total of 27 cycle combinations, 30 programmable water levels and customer-centric offerings such as a "lucky cycle" for loyal customers. PC programming is easy and fast, while time-of-day pricing can be scheduled to increase business on slower days. Cycle modifier keys allow additional profit opportunities and the ability to interface with your card payment system of choice. Quantum™ Gold is designed to help you maximize your profitability.

### QUANTUM™ SILVER

Quantum™ Silver gives owners a variety of profit-producing features, including nine cycle combinations, multi-level vending and time-of-day pricing. Programming is easily accomplished through a PC via an infrared port on the control, and can interface with your card payment system of choice.

\* not all models are available in all markets

## FEATURES

### SEALS AND BEARINGS ASSEMBLY

Two triple-lip seals and an excluder face seal for an unprecedented seven layers of water protection.

### ADVANCED INVERTER DRIVE AND SUMP SYSTEM DESIGN

Our proprietary inverter drive technology provides smooth, reliable power - saving you 33% on electricity versus previous models. The sump system design uses 11% less water while maximizing cleaning power.

### STRONGER FRAME

Computer-optimized frame is lighter, lasts longer, balances loads more efficiently and is designed to reduce sound and vibration levels.

### 200 G-FORCE EXTRACTION

On a typical 30 lb (13.6 kg) washer, choosing the 200 G-Force spin speed option can remove an extra 2 litres of water from the load. This higher spin speed will help move customers through your store faster, and cut your gas usage by as much as 15 percent.

### PC PROGRAMMING CAPABILITY

Manually programming a new or rehabbed store can be time-consuming and prone to errors. The simple, accurate Quantum™ Vended Software allows you to preset your control program on a PC and download your custom cycles, vends and other features into your machines in minutes, instead of hours.

### DOOR HANDLE AND LOCK MECHANISM

The Speed Queen door handle is ergonomically designed for ease of operation, while its locking mechanism is extremely reliable, reducing the risk of alignment problems and door-lock error codes. The control also features a positive locking indicator.

### FOUR-COMPARTMENT SUPPLY DISPENSER

A four-compartment supply dispenser saves time, offers a temperature fill and eliminates over-sudsing conditions. Customers can add two detergents, bleach and softener, all at the beginning of the cycle.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 18 lb (7.3 kg), 30 lb (13.2 kg), 33 lb (14.5 kg), 40 lb (18.1 kg) capacities.\*

## SOFTMOUNT WASHER-EXTRACTORS

The practical ingenuity of Speed Queen is evident in every inch of the heavy-duty suspension and stainless steel construction. This is laundry for the modern world.

The powerful operation of a washer-extractor often requires that the machine be bolted to the floor. Softmount washer-extractors offer an alternative for specialized applications, such as second floors, where hardmount units aren't an option. The heavy duty suspension absorbs vibrations without the need for special foundations, and our stainless steel construction prevents the washer finish from corroding with normal use. The High G-Force extraction significantly reduces drying times and utility costs, getting customers in and out of your vended laundry as efficiently as possible.

### SOFTMOUNT WASHER-EXTRACTOR CONTROL

The B control boasts eight pre-set cycles, but also enables owners to customize setup with variable water levels and temperature settings and create multi-level vend pricing. A laptop computer with Speed Queen Planner software makes it easy to create and download exact settings and vends, or set vend using the keypad.

\* not all models are available in all markets

## FEATURES

### SUPER-HIGH G-FORCE EXTRACTION

Some models feature Super-High 475 G-Force extraction speed, reducing drying time even further, as well as offering significant savings on your utility costs.

### LAPTOP PROGRAMMING CAPABILITY

Manually programming a new or rehabbed store can be time-consuming and error-prone. Using a laptop computer equipped with the Speed Queen Planner software makes it easy to create and download exact settings and vend prices.

### VARIABLE SPEED DRIVE

Our state-of-the-art variable speed drive is designed to provide unique extraction speeds calibrated for a wide variety of fabric types. You'll never waste utilities while providing customers with the flexibility and convenience to manage their laundry.

### AUTOMATIC SUPPLY INJECTION

Leave the dispensing of supplies to your machine with automatic supply injection, which reduces detergent waste and provides more consistent laundry results.

### HEAVY-DUTY SUSPENSION

Our rugged, heavy-duty suspension absorbs the vibrations caused by our high G-Force extraction speeds, providing you with all the muscle of a hardmount washer-extractor without the need for a special foundation.

### STURDY FRONT PANEL

Our large door design makes loading and unloading easy, while the sturdy front panel provides an excellent fit and superior finished edge around the door.

### DOOR HANDLE AND LOCK MECHANISM

The Speed Queen door handle is ergonomically designed for ease of operation, while its locking mechanism is extremely reliable, reducing the risk of alignment problems and door-lock error codes.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • COIN SLIDE

Available in 18 lb (8.0 kg) capacity\*.

## FRONT LOAD WASHERS

Energy efficient. Cost efficient. Everything you need to reduce operating costs, from our low water usage to our high-speed extraction.

Our front load washers are highly efficient, reducing operating costs with low water usage, using as low as 10.9 gallons (41 litres) a cycle — a savings of more than 40 percent compared to some commercial top load washers. A 1,000 RPM spin speed increases overall laundry efficiency by removing more moisture from loads. Less moisture translates into reduced drying times. Fast cycle times get the job done quickly, providing high turn counts for busy vended laundries, while the double load washtub provides lots of room for larger loads.

### FEATURES

Inverter drive-controlled motor, with out-of-balance logic, manages and redistributes unbalanced loads for uninterrupted wash cycles

High spin speed up to 1,000 RPM removes more water from clothes, speeding up drying cycles and lowering dryer energy usage

Heavy-duty construction, from rugged steel drive components to stainless steel inner and outer tubs

ENERGY STAR® qualified to use less energy, save money and help protect the environment

A pump drain allows our front load washers to be installed adjacent to or replace top load washers with no special plumbing (A gravity drain option also is available)

### FRONT LOAD WASHER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a “lucky cycle” for loyal customers and the ability to interface with the store owner’s card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections, basic audit features and is available with a single coin drop installed.

#### E-MECH

The E-Mech control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer’s equipment.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • AFTERMARKET CARD READERS • COIN SLIDE

Available in 14 lb (6.4 kg) capacity.\*

## TOP LOAD WASHERS

As timeless as they are reliable, these washers are built from the ground up with heavy-duty components that are guaranteed to stand the test of time.

Speed Queen commercial top load washers help a coin laundry owner provide an assortment of machines to fill the varying needs of customers — particularly those who prefer to separate items into smaller loads. Constructed from heavy-duty components, from the stainless steel washtub and all-metal transmission to the commercial-grade cabinet finish, you're ensured an extended life for your coin laundry investment.

### FEATURES

At 710 RPM, the top load washer's spin speed ranks among the highest in the industry, reducing drying times and handling high turn volumes during peak periods

Our curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results

Speed Queen's exclusive stainless steel tub comes with a lifetime warranty, and actually becomes smoother with each use, so it won't pill, snag or fray clothes

Fast cycle times allow laundromat owners to capitalize on the opportunities for additional profits

### TOP LOAD WASHER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections, basic audit features and is available with a single coin drop installed.

#### E-MECH

The E-Mech control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**Speed Queen®**

**ACTIVATIONS** SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 25 lb (11.3 kg), 30 lb (13.6 kg), 35 lb (15.9 kg), 50 lb (23 kg), 55 lb (24.8 kg) and 75 lb (34.0 kg) capacities.\*

## TUMBLE DRYERS

Uncomplicated. Uncompromising. Unmatched. Enjoy heavy-duty construction that will provide reliable operation for years to come.

The cabinet design of our single-pocket tumble dryers strikes the perfect balance of heat, airflow and tumble action. Burners ignite instantly, providing the desired temperature quickly, evenly and efficiently distributing heat for reduced drying times and energy savings. Our tumble dryers are designed with fewer moving parts, so that you'll face fewer maintenance problems and less wear and tear. We make it even easier with a large, easy-to-clean lint compartment and a heavy-duty door hinge designed to withstand heavy usage.

### FEATURES

High-performance heater box increases energy efficiency, reduces drying times and provides a more comfortable operating environment

Patented oval cylinder perforations help prevent damage to the dryer's sweep sheets caused by objects left in customers' pockets

A reversing cylinder helps eliminate tangles of large items such as sheets and blankets, ensuring even drying and easy removal of loads at cycle completion

Large, easy-to-clean lint compartment

The 55 lb (24.8 kg) model fits through a 36 inch (914.4 mm) door opening and is a foot shorter than our 50 lb (23 kg) unit, making it a great replacement option for laundries short on space

### TUMBLE DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 30 lb (13.6 kg), 45 lb (20.4 kg) capacities.\*

## STACK TUMBLE DRYERS

Get twice the capacity of a standard dryer in the floor space of a single pocket tumble dryer. Plus, you'll still only need one set of gas, electric and exhaust hook ups, simplifying your installation.

The cabinet design of our stack tumble dryers strikes the perfect balance of heat, airflow and tumble action. This means that no energy is wasted and loads receive the most concentrated drying possible. This equates to some of the fastest dry times in the industry. Plus, our patented oval cylinder perforations solve a common, highly damaging problem, allowing stray screws to pass through without doing large amounts of damage to the dryer's sweep sheets. Adding stack tumble dryers to your coin laundry not only positions your store to get customers out the door faster, but they also offer a wealth of profit potential.

### FEATURES

Axial airflow pattern with sealed cylinder rims delivers the fastest and most efficient drying results

Two drying pockets in the space of one unit helps stores increase drying capacity

Large, easy-to-clean lint compartment

Fewer moving parts mean fewer maintenance problems and less wear

High performance heater box increases energy efficiency, reduces drying times and provides a more comfortable operating environment

Single gas, electric and exhaust hookups simplify installation and are less expensive than installing twice the number of single units

### TUMBLE DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • AFTERMARKET CARD READERS • COIN SLIDE

Available in 18 lb (8.0 kg) capacity cylinder.\*

## SINGLE DRYERS

With a large load capacity in a compact frame, each one of our single dryers is all business, all the time. So you don't have to be.

Commercial dryers are designed as perfect complements to front and top load washers for vended laundry applications in areas where revenues may not support a large-scale coin laundry. With an easy-to-clean large lint compartment and a reversible door to accommodate your laundry design, Speed Queen single dryers are designed to suit your laundry's specific needs. The 2.06 sq. ft. (1913.8 sq.cm) door opening is the largest in the industry, providing easy loading and unloading for your customers.

## FEATURES

Durable galvanized steel cylinder with an extra-large 7 cu. ft. (198.0 litres) of volume to handle large loads and promote faster drying

Efficient dryer heating with 25,000 Btu (gas models) and up to 5,350 Watts (electric models)

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

A quiet, efficient blower system uses a superior airflow of 220 cu. ft. (6229.7 litres) per minute for quick drying results and low operating costs

## SINGLE DRYER CONTROLS

### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

### E-MECH

The E-Mech control features a straightforward design that offers customers simple temperature and fabric selections, using cue lights to monitor progress through the cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • AFTERMARKET CARD READERS • COIN SLIDE

Available in 18 lb (8.0 kg) capacity cylinder.\*

## STACK DRYERS

Save your floor space and double up on some of the most efficient dryers in the industry.

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen stack dryers. You'll also benefit from extra capacity for large loads, for the ultimate in space-saving performance, helping you get the maximum amount of work done without endangering your bank account — or your laundry design.

### FEATURES

Extra large capacity for large loads

2.06 sq. ft. (1913.8 sq. cm) door opening is the largest in the industry, providing easy loading and unloading for customers

Efficient dryer heating with 25,000 Btu (gas models) and up to 5,350 Watts (electric models)

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

### STACK DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

#### E-MECH

The E-Mech control features a straightforward design that offers customers simple temperature and fabric selections, using cue lights to monitor progress through the cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**Speed Queen®**

**ACTIVATIONS** SINGLE DROP • DUAL DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 18 lb (8.0 kg) washer and dryer capacity.\*

## STACK WASHER/DRYER

Get the complete package in a single unit, combining our efficient dryers with the powerful performance of our industry-leading front load washers. Available in 18 lb (8.0 kg) washer and dryer capacity.

Our line of stack washer/dryers are designed as vertical combinations that provide all of the power of Speed Queen washers and dryers while occupying only half of the floor space of a conventional washer and dryer setup. Plus, these stacked units allow you to utilize the same connections and hook-ups required by a standard washer and dryer and come preassembled for simple installation.

### FEATURES

ENERGY STAR® qualified to use less energy, save money and help protect the environment

Water use as low as 10.9 gallons (41.26 litres) per cycle to reduce operating costs

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

Just like their stand-alone counterparts, Speed Queen stacks are 100 percent front serviceable to limit downtime for service

### STACK WASHER/DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a “lucky cycle” for loyal customers and the ability to interface with the store owner's card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the laundry process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections, basic audit features and comes installed with a single coin drop.

\* not all models are available in all markets

## ACTIVATIONS

### SINGLE COIN DROP

This classic, easy-to-use all-metal design reduces coin jamming and easily accommodates reprogrammed changes in vend prices.

### DUAL COIN DROP

The dual drop accepts two coin denominations, ideal for larger capacity machines with higher vend prices.

### WORLD COIN DROP

Our signature coin recognition technology allows multiple coin denominations to be used in a single coin drop.

### CENTRAL PAY

Central payment systems create customer and owner convenience.

### AFTER-MARKET CARD READERS (PREPPED FOR LATER INSTALLATION)

Card payment systems increase customer safety and encourage loyalty due to their convenience. Cashless laundries are convenient for owners as well, who no longer have to collect and transport large amounts of coins from their machines.

### COIN SLIDE (PREPPED FOR LATER INSTALLATION)

Coin slides are available only on rear-control models, offering simple, dependable operation in a variety of configurations.
